Bright Line is a customizable 3 cm wide linear shaped lighting fixture, that emits a diffuse light and gets perfectly integrated into the architecture. Provided with a perfect light continuity and homogeneity all along its course, this lighting product's aim is to help designers and architects draw the luminous lines that highlight the architectural shapes, the spatial guidelines, the transit direction... Composed of a modular system, Bright Line is able to define straight lines and also 90° angles on flat surfaces. \*\*\* NOTE: Recommended for installations where the profile can be installed before the false plasterboard ceiling (thickness 12,5 mm).
